Technical Proficiency

Front-End: React, Next, Typescript, SASS, Tailwind, Mui, Antdesign, Shadcn

Back-End & Database: Node.js, Express, PHP, Python, Prisma, PostgreSQL, MongoDB

Tools & Utilities: Webpack, ESLint, Jira, Git

Experience

Hybiot Co., Ltd. — *Team Lead & Front-End Developer*

March 2023 - July 2025

- Lead a team of 5 developers. Set strict rules for good code and reviewed code daily, which greatly reduced errors in the system.
- Developed an Enterprise Security System featuring real-time CCTV streaming, geospatial mapping, and complex RBAC for multi-level permissions.
- Mentored junior developers on React/TypeScript best practices to ensure code quality and maintainability.

Pramool Quick — *Founder & Full Stack Developer*

January 2020 - Present

- Developed a Chrome extension to automate real estate auction scraping, featuring advanced filters, search saving, and note-taking.
- Architected and launched a B2C SaaS Platform for property management, implementing logic for membership lifecycle, access control, and a comprehensive admin dashboard.

Mubaza — *Co-Founder & Developer*

December 2014 - September 2016

- Co-founded a Tech Startup with a team of 3 developers. Built an E-Commerce platform featuring a custom interactive clothing design tool and a dashboard for multiple sellers.

True Information Technology — *Intern*

May 2013 - September 2013

- Optimized algorithms for high-volume CSV data processing and categorization systems.
-

Key Projects & Contracts

Summer Car Rent — *Full Stack Developer (Contract)*

Oct 2025 - Present

- Developing a centralized Car Rental Platform to replace fragmented workflows (Paper contracts, Excel, LINE), designed to reduce manual workload by ~80%.

Banphue Salt — *Full Stack Developer (Contract)*

Aug 2025 - October 2025

- Developed a Point of Sale (POS) & Truck Weighing System with webcam audit. Digitized cash flow, payroll, and credit management to replace paper-based workflows.
-

Education

Walailak University

Nakhon Si Thammarat

Bachelor of Science in Information Technology

March 2014
